AURUM TOKEN

WHITEPAPER — FIRST EDITION

"The beginning of digital gold. Built on trust, powered by the community."

■ Aurum Token — Whitepaper v1.0

Introduction

The Aurum Token represents the idea of Digital Gold. Our vision is to build a token that symbolizes trust, transparency, and long-term value. Our mission is to grow step by step with the community, creating something solid and sustainable.

Achievements ■

So far, we have built a strong foundation:

■ Token created and launched on Binance Smart Chain (BEP20)

■ Contract verified and published on BscScan

■ Official Telegram group launched with security bots

■ Official page on X (Twitter) created and active

■ Website live (first version, under ongoing improvement)

■ Report submitted to BscScan for token logo update

Next Steps ■

What we are working on next:

■ Roadmap updates and expansion

■ Presale announcement

■ Listings on exchanges (first DEX, then CEX)

■ Partnerships with trusted projects and communities

■ Utilities: golden pass for holders, payment use cases, and future innovations

Tokenomics

Total Supply: 1,000,000 AUR

Roadmap

Phase 1 — Foundation

■ Token creation and contract verification

■ Website launch (first version)

■ Community on Telegram with security bot

■ Social media launch (Twitter/X)

■ Report submitted to BscScan for logo update

■ Publication of Whitepaper v1.0 (this document)

Phase 2 — Expansion

■ Roadmap expansion

■ Presale preparation

■ Stronger community engagement

Phase 3 — Growth

■ Listings on DEX and CEX

■ Partnerships and collaborations

■ Airdrops and campaigns

Phase 4 — Utility & Vision

■ Exclusive access for holders (VIP groups, events)

■ Payment integrations in digital ecosystems

■ Aurum Time Mining (future innovation, in development)

Security & Transparency

• Verified smart contract

• Anti-spam measures in the community (Telegram bots and moderation)

• Commitment to transparent updates

• Liquidity lock and future audits

Conclusion

The Aurum Token is more than just a coin — it is digital gold. This is the first version of our whitepaper, and future updates will be released as the project grows. We are building step by step, with transparency, trust, and the strength of our community.

If you believe in this vision, walk with us — participate, share, and help build. Digital gold is our future, and together we will move forward.
